February 28 - Delta Kappa Gamma Meeting

**HARLEY SMITH,
COORDINATOR**

Message from the Coordinator

Happy February! It is going to be a busy month at the Fulford Center! The Fulford Center, along with Magnolia Midlands GYSTC, will be welcoming students from JD Dickerson Primary School, David Emanuel Academy, and Metter Elementary School for planetarium shows all month. We are very excited to have these groups at the Fulford Center and on campus at East Georgia State College. Inside this month's newsletter is more information about what the students experience during their field trips to the Fulford Center.

We are also working on scheduling dates for the Total Wellness Series that will begin in March and dates for Summer Camps! Currently, we are planning four to five different camps to be held at the center. Next month's newsletter will have more information about the camps and how to register.

Planetarium Shows at the Fulford Center

The month of February and into March is packed with planetarium shows at the Fulford Center! During the school field trips to the Fulford Center, the students and teachers get to enjoy a planetarium show and an activity that corresponds with the information in the show. When students enter the planetarium, Harley Smith gives them information about what planetariums are and the different features that it offers. Some of these features include mapping out constellations, locating planets, and learning how scientists use planetariums to study space. After the show, students

meet with Erin Youmans and Kim Hooks with Magnolia Midlands Georgia Youth Science and Technology Centers (GYSTC) to do an activity that gives a deeper understanding of the lesson the planetarium show shared.

The Fulford Center would like to thank Erin and Kim for their partnership with each planetarium show held at the center, and to each school that visits the planetarium! For more information about the planetarium, contact Harley Smith at 478-289-2464 or hdsmith@ega.edu.
